PLOT TO KILL PRESIDENT FAURE.

Anarchists Have Marked Him for Assassination at Havre.

PETIT BORDEAUX' MISSION.

A Deserter From the French Army Selected to Use the Assassin's Weapon.

PARIS, April 18.—The Petit Journal announces that it has good authority for stating that the Prefecture of Police has detailed a number of detectives to investigate an Anarchist plot, the object of which is or was to assassinate M. Faure, the President of France, during the fêtes at Havre in honor of his visit to that city. President Faure represented one of the districts of Havre in the Chamber of Deputies, and was a member of the Ministry of the Republic. The President is also a ship owner of Havre and a member of its Chamber of Commerce, which body he founded. President Faure, during the Franco-Prussian war he commanded a battalion of volunteers from Havre and led them to Paris, where he took part in the defense of the capital. Naturally the inhabitants of Havre have been looking forward to the Presi-

DAVY CROCKETT'S FRIEND.

"Bill" Cannon Wants to Remarry His Divorced Wife.

KANSAS CITY, Mo., April 18.—Wm. J. Cannon, known as "Bill" Cannon, soldier scout, Pathfinder, a man 74 years of age, has applied to the Recorder for a marriage license. What was more, he wanted to marry his own wife. They were married in the 70s, but Cannon went West soon thereafter and deserted his wife. Two years after, however, he returned, came back, turned East and became an inmate of the Soldiers' Home at Leavenworth, Kan. In the meantime he believed his husband was dead, and desired to remarry, so he left home. Mrs. Cannon applied for a divorce, which was granted. Recently Cannon was again living with his wife, and commenced a correspondence which has ended in her accepting him.

Cannon was a friend of Kit Carson in his days of the Beartooth, with Bill James Bowie, and the rest of that band of indomitable fighters who led the vanguard of civilization westward in the 40s and 50s. No record of his past is available.

A boy of 14 he was at the horrible massacre of the Alamo, of which he is the sole survivor. When him Davy Crockett intruded the last words he spoke before death came upon him. The boy, in the disguise of a Mexican, escaped the massacre, and carried the news of the victory to the world.

In the Mexican war he served with distinction, and at the conclusion became Governor's scout and interpreter, acting as guide to the long trains of emigrants that stretched away across the plains toward the land of gold.

Cannon's adventures on the plains in the civil war, and later in the mountains of Montana and Colorado, would require volumes to tell.

ARTIST JONES ARRESTED.

Accused of Being in the Stamp Counterfeiting Conspiracy.

CHICAGO, Ill., April 18.—United States Secret Service men have arrested C. O. Jones, a newspaper artist of this city, for complicity in counterfeiting the two-cent stamp. Another man also was taken into custody, but his identity was not revealed. A 2 o'clock trial in the U. S. post office was closed with Capt. Porter and Inspector Stier for three hours. More arrests in Chicago and other cities are expected. The officers are certain that the entire gang in custody in addition to others will be taken into custody by the machinery which the work was done.

It seems the stamp collectors spotted the swindle several months before Uncle Sam's detectives. They laid the peculiar appearance and the counterfeits to some bungling hands in the government's printing department. Several of the stamp masters got into a spirited row over the exact difference between the "rarities," as they call the pieces. Some of these "rarities" had not been officially settled at the time of the discovery of the counterfeiting, but it is in somewhat ludicrous that the pieces were offering as high as \$2 and \$3 for them.

MAY MARRY BELMONT.

Story Published in New York Concerning Mrs. W. K. Vanderbilt.

Special to the Post-Dispatch.

NEW YORK, April 18.—The Morning Journal says on the authority of a cabman to a prominent clubman that "Mrs. Willie K. Vanderbilt will probably be married to the entrepreneur who made some where in London."

It points out that Belmont was one of the parties on the ill-fated yacht cruise of the Vanderbilt family.

The first was found on the Lake St. Simon and contained a number of loaded cartridges. The second was found on the Esplanade des Invalides, and consisted of a cylinder charged with dynamite.

CHIEF CLARENCE.

England Will Reinstate Him as Ruler of the Mosquito Reservation.

Special Cable to the Post-Dispatch.

(Copyright, 1895, by the Publishing Co.)

COLON, Colombia, April 18.—News comes from Jamaica, where ex-Chief Clarence is living in a British pension, that he has been assured he will be reinstated as ruler of the Mosquito Country when the Anglo-Nicaragua dispute is settled.

Cordoba, an accountant from Jamaica, is reported to be now at the head of the Mosquito Indians.

PREPARED FOR REVOLT.

The Revolutionary Party Ready for War in Armenia.

LONDON, April 18.—A correspondent of the Associated Press who has visited the Armenian colonies says that after a most careful investigation and verification of the facts he has learned that the armenian question will soon reach a head, and the armenian revolution is prepared. The revolutionary party is prepared for war, being well provided with both money and guns.

DUEL WITH SWORDS.

PARIS, April 18.—Jules Huret and Catulle Mendes, two well-known writers, fought a duel with swords, the former being connected with the name of the latter with Oscar Wilde. Mendes was slightly wounded.

OIL UP AGAIN.

Quickly Gains 23 Points Over Yesterday's Closing Quotations.

PITTSBURG, Pa., April 18.—There was a crowd of eager and excited people in the lobby of the Stock and Oil Exchange when the gong sounded this morning.

The disastrous break in oil from \$2.62 to \$2.17 at the close yesterday had so staggered brokers that they were prepared for anything. But the market, which had gone down to holders of certificates for the opening quotation was \$2.25 and this was immediately followed by a sale at \$2.45, an advance of 23 cents over the previous day. This it sold down to \$2.375 and at 10:30 was quoted at \$2.41 bid.

The Standard again raised its price this morning to \$2.40 a barrel. It now stands at \$2.60 and for the first time since the boom struck the market, the Exchange price is below the Standard's.

For the moment the fields indicate that there is no cessation in activity and the prospect for new territory goes on with unabated zeal.

THE LIMIT OF BRUTALITY.

Miss Fannie Schweickhardt Assaulted by Ed Bowman and Wife.

KNOCKED DOWN AND KICKED.

No Reason for the Brutal Attack but a Woman's Jealousy and a Man's Spite.

Miss Fannie Schweickhardt, a pretty 17-year-old girl living at 400 South Third street, is confined to her bed, the victim of a brutal assault. It was perpetrated out of spite by Edward Bowman and wife, living at the Golden Eagle Tavern, Second and Cedar streets.

Last Monday night the girl set out to make a few purchases. She was accompanied by a young man. At the time her escort was compelled to leave her. It was 8 o'clock when Miss Schweickhardt started to return. A week before she had been stopped by Bowman and his wife and threatened with clubs and stones.

Their wrath was due to the fact that their husband was attentive to Miss Schweickhardt, although separated from him, she did not propose to submit. There was no truth in the charge, but when the girl denounced it as false, Bowman became angry because her denial was not an answer to the charge. He then beat the girl, as the ground has to be prepared, and seeding time for vegetables and cereals will soon be past.

It was understood that in donating the use of vacant lots or tracts property owners forfeit neither right nor chance of sale at any time. Some who have held at any time, have held back on this account.

Their conduct had reached such a point that their husband was attentive to Miss Schweickhardt, although separated from him, she did not propose to submit. There was no truth in the charge, but when the girl denounced it as false, Bowman became angry because her denial was not an answer to the charge. He then beat the girl, as the ground has to be prepared, and seeding time for vegetables and cereals will soon be past.

When Miss Schweickhardt reached Fourth and Cedar streets on her way home, she was suddenly pounced upon by Bowman and his wife from around the corner. Bowman seized her by the throat with his left hand, and with his right struck a brutal blow upon the face with his clenched fist. He is a powerful scoundrel, and all his force was used in this blow. It rendered the unfortunate girl senseless.

As she sank to the pavement Bowman and his wife assaulted her, kicking her with his heavy boot repeatedly with fiendish satisfaction.

When he had sated his brutal instincts, the wretch started to walk off, leaving his victim senseless on the ground. The girl revived she sought to regain her feet, when Mrs. Bowman caught her by the dress and shouted: "Come on, Ed, do her up good."

With a desperate lunge the girl jerked away and started north on Fourth street. Bowman followed, shouting, "Come on, you little scoundrel." Two colonists who were walking across the street called out, "Don't run, white girl, we'll help you," and Bowman and his wife crossed the street to catch up with the girl.

Miss Schweickhardt was terrified and paying no attention to the proffered help, turned on a few more feet and she reached

SPRINGFIELD, Ill., April 18.—The Senate Committee on Elections has decided that Senator McKinlay is entitled to retain his seat in the Senate. The contest was inaugurated by Wilson (Rep.), who was defeated, on the face of the returns, by only 27 votes. The recount gives McKinlay a gain of about a dozen votes. He will get \$300 and \$100 to defray the expenses of the contest.

Frank H. Ryan of the Ryan Commission Co. and President of the Terminal Elevator Co. is hopelessly ill at the Southern Hotel. No expectation of his recovery is expressed by his physicians, Drs. Prentiss and Robinson. The nature of his trouble is diabetes. Mr. Ryan was married a few months ago in Hot Springs. He made a tour of the South about a month ago. Archbishop Feehan of Chicago had a hearing before the House Committee on Education, and Col. Merriman's "anti-Catholic" bill. The Archbishop did not come down to the State capital in person, but he sent two attorneys, Drs. Smith and Murphy, to represent him. They told the committee how it came about that the Archbishop was created a corporation sole to hold real estate for educational purposes and claimed that no harm had ever come from the possession of this power. They said that taxes were paid on property owned by the corporation.

Smith and Murphy said that the Archbishop had no objection to the bill, action was postponed until to-morrow.

SATURDAY PALMER'S "TREACHERY."

The trouble with Senator Palmer is that since he went to Washington he has come to regard Mr. Cleveland as the Democratic party. When he talks about "treachery to the party," what he really means is opposition to Mr. Cleveland. His new test of "party disloyalty" is refusal to accept Mr. Cleveland's leadership.

The best way to answer Senator Palmer's current ebullitions will be to hunt up and quote from the speeches he made in Illinois as the tribune of the people. Ten years ago or even five years ago he would not have called it "treachery" to ask the Democrats of Illinois to express their views on a great public question in a regular and lawful manner, all elements and factions of the party having an equal opportunity to advocate their views before the people. Then he would have said it was the proper and Democratic way.

Now he calls it "treachery." He aims to discredit his opponents with an epithet. He is playing upon the people the same bunco game with words that the gold-monometallists are playing when they hide the real purpose of their endeavors behind such cant phrases as "honest money," "sound money," and the like. To increase the value of the dollar in comparison with the commodities whose value it fixes, and to double the burden of all debts public and private, is "honest," "sound," "patriotic." To ask for a dollar of the same relative value as that in which the debts were contracted, and by which commodities were measured when the country was prosperous is "dishonest," "inflation," and will soon, in the jargon of the goldites, be "repudiation."

Are the people so ignorant that they can be intimidated with a word or foisted with a phrase? We think not, and so Senator Palmer will find.

MASS MEETING TO-NIGHT.

No citizen of St. Louis who feels any sort of responsibility for the welfare of his fellow-men should fail to attend the mass meeting that will be held at 8 o'clock in Chatsworth Hall, Seven-teenth and Olive streets.

This meeting has been called by prominent citizens for the purpose of perfecting the details by which to carry the Detroit plan into successful operation in St. Louis. All the questions pertaining to this important subject will be met and answered, and it will be in order to name a committee that will take charge of the details of the work.

It is necessary to begin right and to begin with enthusiasm if this movement is to accomplish its purposes. Therefore let every business man and philanthropist so shape his engagements to-day as to be present at the Chatsworth Hall meeting to-night.

A TRUST CORNER.

One of the local newspapers obtained interviews with the visiting railroad men, in which most of them express the opinion that the rise in the prices of commodities is due to natural causes and indicates an industrial revival.

Unfortunately the facts do not bear out this rosy view. While there is some advance due to a reaction from the low-water mark of depression and a necessary revival of business, there is no evidence of a general rise in prices.

The two chief evidences of the alleged boom are the great advance in the price of beef and oil. With the percentage of increase in price far in advance of the percentage of shortness in supply, with two of our best markets in Europe shut off from American beef and with continued shipments of beef to England to be sold at prices lower than in this country, the argument that the advance in beef is wholly due to natural causes becomes

absurd. As for oil, who, when the greatest monopoly the world has known controls its production and sale, would have the audacity to contend that its speculative boom is due to natural causes?

In both these cases the rise in prices is obviously due to a Trust cornering of the supply. As soon as the people have been squeezed dry of all they will yield, the prices of these commodities will sink to their normal level, and the cornering of other commodities will be tried. It is not so much a revival of business activity that we are witnessing, as a revival of Trust activity. In the meantime, what has become of the Anti-Trust law?

Not the least gratifying feature of the growth of the Sunday Post-Dispatch is the increase in the ads. of the "Want Ads." As compared with the corresponding Sundays of last year, the Sunday Post-Dispatch of March 31 gained 22 ads. and the Globe-Democrat 12. On April 7 the Sunday Post-Dispatch showed a gain of 9 Want Ads., while the Globe-Democrat showed a loss of 8. On April 14 the Post-Dispatch showed a gain of 16, and the Globe-Democrat a gain of 6. In circulation the Post-Dispatch is emphatically the people's paper. It is fast becoming the favorite medium for marking their known wants.

FILLY FORESTALLING ACTION.

The news that the Republican members of the lower branch of the State Legislature are being secretly pledged to support a new election bill drawn by Filley is a significant indication of the real purpose of the Republican boss and his legislative allies.

The Public-Safety Committee of this city, composed equally of Republicans and Democrats, is now engaged in framing a non-partisan election bill to be submitted to both houses. It embraces all the points agreed upon by intelligent and honest reformers of both parties as necessary to secure purity of elections. The only difference between the parties concern the administrative features, and the committee is striving earnestly to arrive at a conclusion that will assure efficiency of the law and will be acceptable to all. No partisan advantage will accrue to either party in the adoption of this measure.

But if the Republican House forestalls the non-partisan bill and commits itself to a partisan measure dictated by Filley, sending it to the Democratic Senate as the Republican ultimatum, the result may easily be foreseen. A partisan fight will be precipitated and a dead-lock will be inevitable.

The only possible motive for such action is a desire to defeat all election reform legislation while posing as the friends of reform. The people will have no difficulty in seeing through this shabby trick.

A CHANGE OF LEADERSHIP DEMANDED.

The make-up of the Democratic City Central Committee as analyzed in the Post-Dispatch by an old Democrat yesterday is sufficient to condemn the committee without reference to its record.

Of the twenty-eight members, seven are political saloon-keepers, ten are chronic office-holders or office-seekers, and the others a medley of contractors and small jobbers. There are scarcely three men in the committee who have any other interest in view except their own or that of some boss in the background who rewards them for doing his work.

As a representative of the Democrats of St. Louis this Falstaffian collection of barnacles, jobbers and political saloon-keepers is a burlesque. To place the interests of the great Democratic party in their hands is to turn it over to be plucked and thrown on the political garbage heap. Decent members of the party decline to support or follow such leadership. Rather than be identified with an organization controlled by such men they would prefer to have the party beaten.

The result of the last election was to be expected of such party leadership, and the same result may be expected until the leadership is changed.

A BOARD OF PARDONS.

The wisdom of Gov. Stone's recommendation in his biennial message that the Legislature create a Board of Pardons receives peculiar emphasis from his enforcement of stays of execution in the cases of seven men condemned to the jury service.

The reason given by the Governor for this action is that lack of time prevented his giving due consideration to pleas for commutation of the sentence. The Governor clearly showed in his message that this reason is justified in nearly all cases that came before him. If the Governor carefully considers the great number of pleas for pardon or commutation with the vast mass of evidence submitted to him, he will have time for nothing else. He often has on his hands more work than one man can do within the allotted time. The result is that the Governor must either neglect his duties or surer the work of examining the pleas and thus perhaps work injustice.

If the pardoning power is to be exercised at all justice demands that it be exercised with the greatest care, and that it be exercised promptly. The frequent postponement of executions or of hearings of pleas for pardon works inhumanity and a delay of justice. Yet it is often unavoidable when the whole burden of the work in a great State rests upon the Governor. The difficulty increases with the growth of the State, and the only remedy is a Board of Pardons.

DISSIDENT MOB MUDDLE.

The highest award for official servility to mob rule is undoubtedly due to T. D. Hightower, Coroner of Corcoran, Tex., "by merit raised to bad eminence."

Mr. Hightower was called in his capacity as Coroner to pass upon the death of a negro ravisher who, having been taken from the hands of officers of the law, became a target for the rifles of a large party of indignant citizens. After viewing the perforated body and deciding that the man was dead, Coroner Hightower in his official report narrated the crime of which the negro was accused and closes with the remark that he "was tortured just outside the city limits, about where the hellish crime was committed, and there received the wounds that caused his death, a punishment certain, speedy and deserved."

It is customary in communities where public sentiment endorses the lynching

of negroes to call in the coroner to give a remedy for existing evils. Servants of the people—Senators and Representatives—should lead the lynch mob into the State institution on the eastern hills of the capital city. The people at large have objection to a paid lynch being sent to Jefferson City, but they want it accompanied by a delegation of Sheriffs and securely housed as soon as it reaches there.

ALDEBARAN.

American Phonograph Co. Stockholders Question Edison's Bid.

NEW YORK, April 14.—When John E. Hardin, receiver of the North American Phonograph Co., which failed in August, gave notice to the creditors of the company several days ago that he had received from Thomas A. Edison a bid of \$125,000 for the company's remaining assets, he proposed to submit the bid to Chancellor McGill.

Receiver Hardin round-tabled to the amount of \$100,000 principal assets before the receiver took charge. Mr. Edison foreclosed a lien on the property, and when his bid for the assets was submitted to Chancellor McGill, the stockholders suspected that his purpose was to get control of the company.

When the case came up, Mr. Edward Keesay, Mr. John E. Stein, Mr. Saligman of this city, who are stockholders, read a petition asking the Chancellor to order the books to be filed in the North American Co.'s books to find the real condition of the company's affairs, to determine whether Mr. Edison's bid will be accepted, and to require the receiver to file in the North American Phonograph Co. bought from Mr. Edison for \$500,000 the right to sell phonographs in every other part of the world.

United Edison Co. discovered, Mr. Keesay said, that the North American Co., of which Mr. Edison was President, was a shipper of phonographs. Edison's bid, however, was a distinct understanding.

"When we find," said Mr. Keesay, "an offer to buy the property of the North American Co. made by another, the stockholders should be allowed enough time to stand up or stand out from the figure. The pointed rever is cut in one with the coat, and separately, and runs down to a slight point in the center. Both collar and front stock should be kept straight."

The Chancellor added that he would not dispose of Mr. Edison's bid until the stockholders were informed of the company's affairs.

RELIEF

DEMANDED.

Unions Inst Upon the Passage
of a New Servant Bill.

MASS METING ACTS FIRMLY.

All the Local Organizations in the
City Eve Taken Individual
Act on the Question.

Representatives of the labor unions of the city met at Hotel Turner Hall Wednesday night to discuss the new servant bill, embodiment the call for the extra session of the Eve Assembly.

The meeting was called to order by John P. Marnell, the Typographical Union.

William O. Tane, Chairman of the District Assembly of Knights of Labor, was made Chairman, and August Priesterbach, Secretary of Beer Drivers' Union, was elected Vice-Chairman.

Adams Rector gave a history of the fellow-servant doctrine, which he said, originated in England in an English court, F.R. vs. Peter, in 1851, which it was held that a servant company was liable for damages when an employee was hurt by the negligence of a fellow employee.

In 1852, the Harvard vs. Boston and Worcester Railroad case, the Massachusetts Supreme Court held that the company was not liable for the killing of an employee by another employee on the same day.

This doctrine had been maintained in all courts, State and Federal, since.

The justification ever advanced for this doctrine was that the employees knew each other, they worked together, were able to judge of each other's qualifications, and guard against negligence.

This was in great part true, the doctrine was originally laid down.

The conditions have changed. Railroad systems now in existence did not know even by sight fellow-servants in other departments, and application of the doctrine is no longer possible. Every year more people, most of them employed, fall victims to railroad accidents than fell under the Corsican inquisitor at Waterloo.

During the discussion, the speaker argued that the negligence of the employee became the negligence of the corporation.

It was a question he said, of vital importance to a large body of workmen, a body of men exposed to more than ordinary danger, and who, seeing their mates driven off the cars of the corporation by the operations of this notorious doctrine.

The speaker then explained the object of the bill, which was to prohibit the corporation from this doctrine of immunity from liability.

In 1888 the Missouri Legislature passed a bill which required that if a widow or child of a victim of a railroad accident or a railroad accident, the right of recovery be given to the amount of \$5,000. It came on the state books until 1878. In 1878 the Supreme Court decided that the law was valid, that it meant what it said, and that the right under the law was valid, and that cover meant any person.

But in 1878 the corporations, seeing prospect of repealing the law, sent a deputation to the legislature attacking the law in its courts.

The best legal talent available was brought to bear, and in the case of Conroy vs. Missouri Pacific, it was shown that "any person" did not include "employees."

In 1878 in the case of Franklin vs. Ark Island Railroad, the court held that the law did not cover, and the court, in content with the plain wording of the state, undertook to determine the meaning of "any person" it meant, and decided that "any person" the meaning intended is "any person except employees."

Mr. Rector then drew picture of the futile attempts made at every session since 1878 to pass a law which would give the protection asked for by bond due to the workmen. Always the efforts were foiled by the lobby.

In concluding, Mr. Rector called attention to the extreme care and earnest activity for prompt, concerted and energetic action by workmen throughout the State.

The original statute of 1878 was good enough, but the language was too broad, and after the words "any person" the words "including employees." Rehearsed the law should be limited and clearly granting the right to recover for injury as well as death.

At the conclusion of Mr. Rector's speech the following preamble and resolutions were adopted:

Whereas, Gov. Wm. J. St. So has seen fit to call an extra session of the legislature of the State to consider, among other things, the passage of a "fellow-servant" law; therefore, Be it Resolved, That we in meeting assembled, demand of the State Representatives from the city of St. Louis, that they vote for and use all bailable means to secure the passage of a "fellow-servant" law that will afford protection to the em-

CLAY COUNTY

FALLS IN LINE.

Delegates Will Be Chosen to the Illinois Democratic Convention.

GOODRICH SEES DISASTER.

Wants the Meeting at Springfield Will Cause a Split in the Party.

LOUISVILLE, Ill., April 18.—Clay County will be the first county in Illinois to fall into line on the silver question. The Democratic County Central Committee having called a delegate convention for Monday, April 29, section delegates are to attend the meeting. The purpose is to attend the 27th. Our people fully endorse the action of the State committee in calling a convention, and nine out of ten of the Democratic voters are for free silver coinage.

M'CONNELL FOR COINAGE.
The President of Chicago's Iroquois Club Starts the Goldites.

CHICAGO, Ill., April 18.—Judge Samuel P. McConnell, in an extended interview, is quoted as declaring himself as an out and out advocate of the free coinage of silver. The President of the Iroquois Club, and a half long, is so worded as to leave no doubt as to where the gentleman stands. The utterance of Mr. McConnell is particularly interesting, as he holds a prominent position in the councils of his party locally, was mentioned as a candidate for Mayor, is President of the Iroquois Club, and has been a strong adherent of the Gubernatorial nomination. Judge McConnell's straight out talk started the party leaders not a little.

Ex-President A. T. Ewing of the Iroquois Club joins issue with Judge McConnell. Mr. Ewing declares that Mr. McConnell's talk does not express the sentiment of the club.

INGALLS FOR SILVER.
Favors a Free Coinage Candidate for the Presidency.

KANSAS CITY, Mo., April 18.—A special to the Journal from Macon, Mo., says: In conversation with a member of the G. A. R. at the State encampment being held here, Hon. John J. Ingalls declared he was not only in favor of putting a plan into the national platform favoring the free and unlimited coinage of silver, but that he was strongly in favor of nominating a candidate who was personally in favor of that principle.

"Very," remarked a prominent G. A. R. member, "you will knock out McKinley."

"No," replied Mr. Ingalls, "I do not mean that, or go far, because there is plenty of time and men often change their positions."

WILL CAUSE A SPLIT.
Judge Goodrich Opposes the Proposed State Convention.

SPRINGFIELD, Ill., April 18.—Judge Goodrich takes exceptions to Chairman Hinrichsen's general calling of the Democratic Convention. He says: "The calling of such a convention at such a time so far ahead of the National Convention is something that was never before done in this State, and there should have been the fullest publicity given to it, and all the members of the majority of the committee, Common honesty, as well as a small amount of political sense would have dictated this course. At the present time, however, a small amount of both his action in this matter can only be accounted for on the theory that he was not aware to make public his plan in this matter."

The alleged object of holding this convention was to give the Democrats of the State a chance to hold a conference for the purpose of arriving at some agreement as to the best policy to be adopted by the party in regard to the silver question. In fact, however, it is found that the efforts of Mr. Hinrichsen are directed to the denunciation of all Democrats opposed to his particular view, and that the state convention will be nothing more than a caucus of free silverites met for the sole purpose of imposing their views on the silver question, and to keep the country in the dangerous if not fatal tree silver heresy.

If his plans are carried out it will probably result in the total disintegration of the Democratic party in Illinois. There are thousands of Democrats in Illinois. Democrats from principle and not for office, and not because by action of the convention called in the manner that this was, should it adopt the policy outlined by him. It stand upon the platform adopted by the national convention in 1892, and I see no reason and nothing has occurred since that time which would induce me to alter my views, whether as a matter of party policy or for any other reason."

NEOSHO DEMOCRATIC CLUB.
It Urges the Missouri Democracy to Declare for Silver.

Special to the Post-Dispatch.
NEOSHO, Mo., April 18.—The following resolutions were adopted by the Neosho Democratic Club at a meeting held Tuesday night:

Whereas, business depression continues, prices of all products are down to the cost of production, the industries of our country nerves and the people are in a state of apathy because of the financial gloom that hangs over the country;

Whereas, the coinage and circulation of both gold and silver has ever been a Democratic tenet; therefore be it

Resolved: That we endorse the action of the Democratic State Committee of Illinois in calling a convention to declare the position of the party.

Resolved: That we will in every legitimate way assist in the dissemination of the doctrine that the party favors the working unit of value, the silver standard.

Resolved: That we believe that the Missouri Democracy should at an early day declare for the silver standard.

Resolved: That we endorse the action of the Democratic State Committee of Illinois in calling a convention to declare the position of the party.

FRANCIS ZERK, President.

ELKINS NOT A CANDIDATE.
Father-in-Law Davis Contradicts a Rumor and Disagrees With Hill.

NEW YORK, April 18.—Ex-Senator Henry K. Davis of West Virginia, father-in-law of Senator Stephen B. Elkins, was at the Fifth Avenue Hotel last night. Mr. Davis, who is a Democrat, declared that his son-in-law would positively not be a candidate for the delegation from West Virginia to the Democratic nominating convention. For the Democratic nominee, he said, the people should name a Southern man who should be named.

"But the people of the South, he added, would wish to select from the South. One thing I wish to say emphatically, we should not select any man candidates for the delegation from West Virginia. We have had too many candidates from the Empire State."

EVERY LAWYER HIRED.

Dr. Simmons Gets All the Legal Talent in and About Warrenton.

The suit of John McBain against Dr. C. F. Simmons of the Simmons Medicine Company, for \$10,000 damages for assault, came up Thursday at Warrenton, Mo. The case was sent from the St. Louis Circuit Court on a change of venue. It resulted from the assault made upon McBain by Dr. Wm. F. Smith, in the latter's office in Warrenton. Simmons was sentenced three years in the penitentiary, afterward securing a new trial.

Judge Chester H. Krum has been representing Simmons in both the civil and criminal proceedings, associated with Col. D. P. Dryer. Judge Krum, however, is not figuring in the Warrenton case.

It is customary on changes of venue of this kind, for parties to a suit to secure local lawyers to assist, on the theory that chance favors the bold. Such an arrangement, at least in jury cases, Lawrence Wm. F. Smith accordingly visited Warrenton some time since to retain one or two local lawyers for McBain. He will, we are informed, however, not be a local lawyer within reach in a position whatever from that side.

Dr. Simmons had preceded him and had retained every lawyer within fourteen miles of Warrenton. This is why Judge Krum is at Warrenton. Messrs. Smith and D. D. Fisher, of Warrenton, are engaged for Warrenton to conduct McBain's case unaided.

MUST DECLARE ITSELF.**Clearing House Cannot Ignore Existing Condition of the Check Charge Rule.**

Bankers now hold that the Clearing-house Association must meet at an early date and either withdraw its rule regarding country check charges, or else absolutely declare itself again in favor of the rule. The St. Louis National directors are working among the other banks with a view to having a call signed for the meeting.

The meeting of the members is necessary to call such a meeting, and it is known that at least two banks, formerly in favor of the rule, will sign.

With the intent of calling to a vote it is predicted that the rule will be defeated, as it is known that several of the smaller banks are prepared to do so.

There was nothing else for them to do, because they were not in a position to dissent.

The President of one of these banks who did not wish his name used, said: "I have had decided views against the rule all along, but did not care to put myself on record. I am not in a position to dissent, but they are now getting all the blame from the merchants. I am gaining new customers every day."

"Will you sign a call for a meeting of the Clearing-house to reconsider the matter, if asked to do so?"

"I am prepared to do anything of the kind, which is for the best interests of the merchants of St. Louis."

President H. M. Noel of the St. Louis National, in a letter to Post-Dispatch reporter: "My bank has withdrawn its support from the country check rule of the Clearing House Association, and the Directors of the bank, in their recent days' trial, that it was not to the best interests of the bank. We consider it has not the province of such an association to attempt to regulate the business of a bank with its customers. I still believe in making a charge for the collection of country checks, but I make no charge. Interest charges should be made according to the value of the account of individual customers."

W. T. Anderson, Vice President of the St. Louis Clearing House, in a letter to Post-Dispatch reporter: "This rule has got to go," said he. "A Clearing House has no right to dictate what we shall or shall not do. We are dealing with our own customers. There are depositors whose accounts are of no value to a bank, and these should be willing to pay something for the collection of their checks. There are other customers who carry heavy balances, on which the banks are able to make money and they should not, and must not be charged for the collection."

"We are prepared to go into this fight with all our energies, for the purpose of securing a better rule. It is a back number rule, and not in accord with our more progressive methods of St. Louis."

MUNYON

Infuses New Life and Hope Into the Sick of This City.

The Remarkable Cures Made Convince the Most Confirmed Invalids That They May Yet Enjoy Health and Happiness.

The Philadelphia Times truthfully says: "Munyon is to medicine what Edison is to electricity."

The marvelous cures which have been made by the use of his little sugar pellets have astonished physicians of all schools, and will undoubtedly revolutionize the whole practice of medicine.

The Professor believes there is a cure for every disease, and that those should die only of old age or by accident.

His system is to build up, not to tear down; his strength, not to weaken.

Not Munyon does not claim that he has one remedy that will cure all complaints, but that he has prepared a specific cure for nearly every disease. He does not claim that his rheumatic will cure consumption, dyspepsia or any other complaint, but he does guarantee that it will cure rheumatism. His dyspeptic cure is particularly excellent to cure dyspepsia; his consumption cure to cure asthma; his kidney cure to cure kidney troubles. The same may be said of all his different remedies.

He has prepared them in a manner which enables the rich and poor to obtain them for the small sum of 25 cents from any drug store.

They are absolutely harmless, pleasant to take and may be carried in the pocketbook.

A valuable little book, called the "Guide to Health" has been issued and can be had of any druggist free, which intelligently sets forth in plain, simple language how anyone can cure themselves.

HOW THEY DID HOWL!

A Spanish Dancer Makes the Funny
Fellows Feel Funny.

The beautiful little bald spot on the back of Richard W. Shapleigh's head was fairly radiating with merriment Wednesday night when he clambered onto the improvised stage in the Mercantile Club's banquet hall and announced the formal opening of the "Howl Festival," the smaller Folks' Howl, as follows: "I am going to blow with corn-cob pipes in their mouths, it was only necessary to start the ball a-rolling. After that it kept right on of itself, and I have not stopped yet, but that it was officially stopped by an announcement that the

It was announced that other surprises would follow and everybody was asked to solicit membership for the organization.

Col. Hopkins and his performers, together with a favored few, were given a little banquet after the others had gone.

ST. JOSEPH, Mo., April 18.—C. H. Carver and Henry Ward, two society youths, fought under London prize ring rules for the pretty Marie Ward. Both paid half and Carver won her. Ward challenged him to fight. After the lapse of an hour the fight was declared a draw. Both men were wounded.

CAMPAIN IN CHITRAL.
The British Driving the Tribesmen Before Them.

CALCUTTA, April 18.—A dispatch from Simla to-day announces that the second and third brigades of the British expeditionary force operating against Chitral advanced yesterday to Miankai. The report said that the British force has opposed 2,000 of the enemy. The Goorkhas, Zafar Highlanders and Punjab Infantry attacked the tribesmen, and the British batteries kept up a continuous fire of shell. The enemy is slowly retreating. On the British side five soldiers were wounded.
